

Human Research Ethics and Consent Declaration Form

This form is mandatory for manuscripts involving human participants, identifiable human data, medical records, clinical images, or human biological materials. The corresponding author must complete and sign the form and provide supporting ethics documentation when requested.

1. Author Declaration

1. The study received approval from an appropriate ethics committee or Institutional Review Board before the research began.
2. The research complied with the Declaration of Helsinki and applicable institutional and national requirements.
3. Informed consent was obtained from participants or their legally authorized representatives, unless formally waived by the approving committee.
4. Written consent for publication was obtained where participants could be identified from images, case details, or other information.
5. Participant privacy, confidentiality, and personal data were appropriately protected.
